83	Amount excluded from AT1 due to cap (excess over cap after redemptions and maturities)	N/A	N/A	
84	Current cap on T2 instruments subject to phase out arrangements	N/A	N/A	
85	Amount excluded from T2 due to cap (excess over cap after redemptions and maturities)	N/A	N/A	
Qualitative Analysis				
<p>In general, the capital component is dominated by permanent capital. The core capital is the largest element of the Bank's capital. In June 2021, the total capital ratio position against ATMR was at 27.36% (consolidated). This ratio stands far above the minimum CAR requirement set by the Financial Services Authority. The Bank will also continue to strive to maintain CAR at a healthy level.</p> <p>The Bank's consolidated capital structure is dominated by the core capital (83.0% of Bank BTPN's total consolidated capital). This capital consists of paid-up capital, additional paid-in capital and retained earnings.</p>

Qualitative Analysis

The Bank continues to conduct assessment to strengthen the level of capital according to needs if market conditions are conducive.

The sources of capital that are expected to be pursued by the Bank to realize the capital plan or meet the Bank's capital needs are from Retained Earnings and additional capital from shareholders, either through a right issue or a public offering. The accumulation of Retained Earnings is affected by the amount of dividends paid by the Bank to shareholders which is decided in the General Meeting of Shareholders. In determining dividend payments, the Bank always considers capital adequacy, both in terms of fulfillment of CAR and fulfillment of LLL in accordance with plans for future credit growth. Bank capital is projected to increase in line with accumulated profits.

Qualitative Analysis					
The Bank is very concerned about the importance of capital adequacy for the Bank, therefore monitoring the CAR both individually and consolidated. Capital management and planning are carried out in line with the preparation of the Bank's strategic plan.
